# 110,000 miles

the number of miles the average person walks in a lifetime
equivalent to **5 trips around the Earth**
every **triumph**. every **adventure**. every **path**
needs **unique support**. we provide **the best**
handmade, high-quality, the **hallmark of excellence.**

Foot Levelers has been providing more comfort and less pain for over 70 years.

# 5 REASONS

## TO USE FOOT LEVELERS CUSTOM ORTHOTICS

1

### Easy, proven conservative care.

Foot Levelers orthotics are proven to reduce Low Back Pain by 34.5%.[1] Low back pain is the #1 cause for missed work, and is a leading cause of the current opioid crisis.

2

### Create a Symmetrical Foundation

The feet are the body's foundation. Foot dysfunction can cause problems throughout the rest of the body.

3

### Dynamic Function

Your balance and the way you walk are improved by wearing Foot Levelers orthotics.

4

### Improved Performance

Studies show Foot Levelers orthotics help increase drive distance on the golf course and reduce pain in those who stand all day.[2]

5

### Heel Strike Shock Reduction

Innovative materials absorb shock, which helps reduce pain and discomfort caused by heel strike while walking.

# What are others saying?

### “What impresses me...

...about [Foot Levelers] products is how amazingly helpful they have been in my recovery. I not only avoided surgery, but I am able to walk and run as much as I want without any foot pain.”

*-Ultramarathoner*
*Thor Johansen*

### “I have been using Foot Levelers...

...custom orthotics personally and professionally for over 15 years. It has helped me personally because it allows me to perform at my best knowing that I have proper support. My patients absolutely love their stabilizers because the proof is in the results. They feel better, perform at a higher level and best of all it helps them retain their adjustments longer. Foot Levelers is the only company I trust for my patients.”

*- Dr. Steven Loniewski*

### “With my Foot Levelers functional orthotics...

...I can now run up and down the halls in my office on concrete floors, get up and down out of my chair and perform my normal duties as an Office Manager without foot, knee, ankle, leg and lower back pain. My feet no longer hurt and my legs, thighs and lower back have regained great muscle strength and tone. I do not miss a day without my orthotics.”

*- Toni B.*
*Anniston, AL*

**Tell Us Your Story!**

# Good Enough?

**When it comes to your health, "good enough" may be anything but.**

✗ Generic orthotics typically only support one arch and may not maintain the structure of the plantar vault. This can create problems in other parts of the body, such as painful stress in the low back and neck.

✓ Foot Levelers custom-made orthotics are built with the **3 Arch Advantage**® and help support the finer points of the body by correcting all three arches.

By addressing all three arches, our orthotics help **reduce pain** throughout the Kinetic Chain and improve **balance, proprioception and physical performance.**

*When the foot hits the ground, everything changes.*®

## ***Support to match EVERY lifestyle.***

DIFFERENT ***SHOES*** REQUIRE
DIFFERENT ***CUSTOM ORTHOTICS***

Match orthotics to the footwear styles you wear frequently from dress to athletic and casual shoes.

Multiple pairs ensure maximum comfort and performance for all the things you do.

# Orthotic **Feature Definitions**

**ZORBACEL®**
Absorbs damaging shock at heel strike.

**STANCEGUARD™**
Provides variable firmness, flexibility and control at midstance.

**PROPACEL™**
Provides a propulsive boost at toe-off, helping to reduce fatigue.

**MAGNET SYSTEM**
May enhance your energy, edge and performance. *Do not use if you are wearing a pacemaker or electrical implant of any kind, or if you are pregnant.*

**MOISTURE WICKING**
Helps absorb moisture and perspiration to control odor and increase comfort.

**WATERPROOF**
These products are better able to stand up to moisture and are recommended for patients who live or work in wet and humid environments.

**MPAX® TECHNOLOGY**
Proprietary, state-of-the-art material is soft, breathable and flexible at rest, but instantly absorbs up to 90% of energy upon impact.

**MPAX® PRO**
Innovative mid-layer material, infused with dynamic foam technology to reduce and redirect shock away from the foot; maximizes rebound for increased stride distance and to save energy at toe-off.

**FAR INFRARED TECHNOLOGY (FIR)**
Redirects energy back into the body to help enhance muscle elasticity and performance, stimulate circulation, boost energy and relieve muscle fatigue.

**GAIT CYCLE SYSTEM® (GCS)**
Only available from Foot Levelers, the GCS is a system comprised of Zorbacel® for shock absorption at heel strike, Stanceguard™ for variable support at midstance, and Propacel™ for a propulsive boost at toe-off.

**GAIT CYCLE SYSTEM EXTREME® (GCS-X)**
Maximum support and protection from heel strike to toe-off with additional Zorbacel® and Propacel™ layers.

**DYNAMIC RESPONSE SYSTEM™ (DRS)**
Proprietary arch material acts like a suspension system and enhances stability in all 3 arches by responding to variable loads and uneven terrain.

**DYNAMIC RESPONSE SYSTEM EXTREME™ (DRS-X)**
The benefits of DRS plus additional shock absorption in the heel provides greater comfort, better protection and improved performance.

# WATERPROOF FLIP-FLOPS

All of Foot Levelers custom hand-made flip-flops come with our 3 Arch Advantage® which support all 3 arches of your foot. They also include a high-quality mid-layer that provides shock absorption on heel-strike and is softer and more comfortable than off the shelf flip-flops.

# What Orthotics Do For Your **Body**

Foot Levelers custom orthotics were developed to improve your posture and overall comfort level. When your feet are stabilized, the rest of your body is in balance. In addition to comfort, custom orthotics also help reduce back pain, hip pain, and even neck pain. Learn more about each of these conditions and how Foot Levelers can help you live a pain-free lifestyle.

There are many possible reasons for **back pain**, but spinal strain and postural fatigue account for about **70%** of cases not caused by more serious conditions.

## BACK PAIN

The sacroiliac (or SI) joints are the link between your spinal column and pelvis. They help absorb damaging shock forces, and they also help stabilize the body and transmit weight to the lower limbs.

## SACROILIAC JOINT PAIN

There is no single cause for painful knee joints. But there are generally 2 types of contributing factors: traumatic and a condition that exists, which is chronic. Your doctor will help determine the cause of your knee pain.

## KNEE PAIN

Leg length inequality (LLI) can cause pressure, stress, and pain in your knees, thighs, hips, pelvis, and spine.

## SHORT LEG

# What Orthotics Do For Your **Feet**

The pain you feel in your feet is debilitating and prevents you from living life to its fullest. Foot Levelers custom orthotics offer relief from some of the most common foot conditions, including plantar fasciitis and metatarsalgia. Foot Levelers orthotics are a great solution if you're experiencing foot pain.

When the foot's arches collapse, they no longer support the body properly. Pronated, or flat feet are also less shock-absorbent, creating extra stress on the bones, muscles, ligaments, and tendons of the entire body.

## FLAT FEET

The plantar fascia is the soft, springy tissue on the underside of the foot. With injury, wear-and-tear, or age, a painful, ongoing condition may result: plantar fasciitis.

## PLANTAR FASCIITIS

Metatarsalgia is pain in the ball of the foot. The soft, springy tissue beneath the foot is the support system for bones. With injury, wear-and-tear, or age, tissue deteriorates. Arches flatten, and toes may begin to crowd one another.

## METATARSALGIA

If your ankle frequently "gives way" while walking or during activity, or if you've suffered from multiple sprains, you may have chronic ankle instability.

## CHRONIC ANKLE INSTABILITY

# Custom-Made vs.
## Over-the-Counter Orthotics

Custom orthotics are far superior to generic or off-the-shelf inserts. They're custom-made to easily slide into your shoes and support the unique shape of your feet. Foot Levelers custom orthotics are unique because they support all three arches of the foot. By balancing the feet, Foot Levelers orthotics help reduce pain and improve performance throughout the body.
